TO BREAK

Sod For New Baptist Church Building On Sunday

Nearly All Money Subscribed For The Improvement

The formal exercises of breaking sod for the new Baptist church building will take place next Sunday in connection with the morning service. The soliciting of funds, while not complete, has reached the point where the building committee feels safe in starting work on the building. The first structure was built on West Vine street in 1841. It is now occupied by Mr. Strang's carriage shop. The present church building on East High street was begun in 1882 and completed in 1884, being dedicated on Sept. 23, 1884. Dr. F. C. Larmore and Mr. John M. Ewalt were members of the original building committee.

The movement for the present building enterprise was begun early last fall and a strong committee, with Mr. R. S. Goodell as chairman, was appointed.

The policy was adopted of trying to provide for the money before beginning the building. Eighteen thousand dollars was considered to be the necessary amount and the pledges were so drawn that none would be valid until a minimum of \$15,000 had been subscribed. In order to take advantage of good weather the committee is encouraged by the subscriptions already in to begin the building at once while attempting to raise the remainder of the \$18,000 necessary to complete the building.

When finished the building will be thoroughly modern and well adapted to the best methods of church and Sunday school work.

Practically all of the present building will be preserved and included in the new structure.
